Import.

PT.BIL carry out routine import work for several companies in Indonesia, and the imported goods are from several countries, such as: Singapore, Thailand, Korea, China, India, Turkey, etc. In general, we import using 20 feet containers, most of them using dry container.

Export.

In general, we export using 20 feet containers, most of them using dry container, and some using reefer container.

The export work carried out by PT BIL also includes the customs clearance process, and PT BIL also deliver the exported goods to the customer's warehouse. We are doing a one stop solutions.

Our Services.

We Provide Full Assistance In Freight And Warehousing. We are deeply convinced that the quality of a service is the main success factor in our sector.

Our airfreight staff attaches great importance to customizing the booking process for our customers. That's why we strive to find the air freight solution that best suits your needs. We'll ask you when the freight is available, what the required delivery date is, and if there potential to save on time or cost. Your answers to these and other questions help us decide if you should book the air freight as direct. We'll also see if our sea-air service is a better solution for you.

The world's ocean covers 71% of the earth's surface, means that maritime transport has been a major driver of economic growth and globalization, and maritime transport is still quite complex, which depends on successful coordination among multiple relevant partners, each with its own advantages. Also known as sea freight, ocean freight is the transportation of goods through the sea, using cargo ships.

That is the most common way of transporting goods across the world, representing about 80% of international global trade, and the percentage is even higher for most developing countries.

Sea Services include:

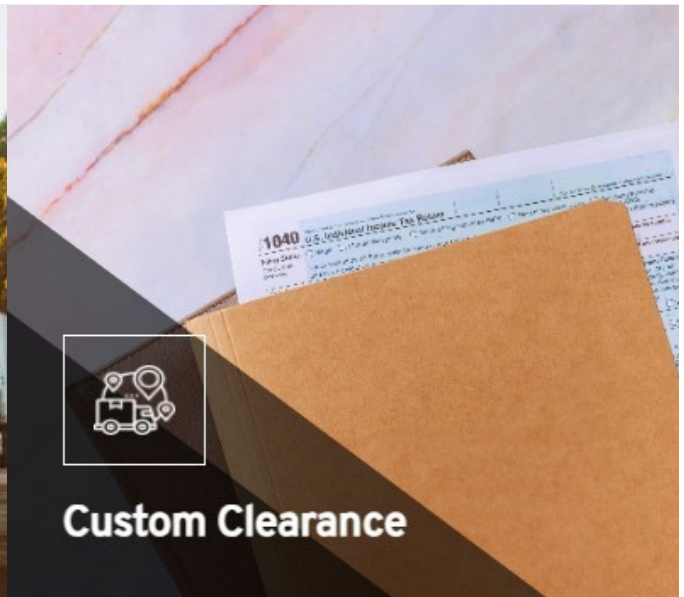

- Confirmed space allocation with the liner.
- Sea freight import.
- Sea freight export.
- Full container load (FCL) consolidation.
- Less than container load (LCL) consolidation.
- Factory or warehouse or farm stuffing of container
- Dry or reefer shipment
- Custom clearance and forwarding
- Cargo Tracking

Land Transportation

Indispensable for the movement of any type of cargo, our land transportation services totally essential for our customers, we handle our cargo according to each need. We offer our services to your destinations through our well network of operations. Our transportation services always make sure that your cargo reaches the destination on time, every time.
